Recommended Bar size	50 cm	50 cm	50 cm	50 cm	50 cm	60 cm	60 cm
Weight "Kite only" (kg)	1,49	1,76	2,02	2,29	2,55	2,95	3,35
<p>The Wind Range Chart is to be used as a point of reference. It is based on a rider who weighs around 75kg (165lbs.) Actual use will vary depending on your weight, skill level, conditions on the Water or Land, Board Size, typ of board (Twintip or Hydrofoil) and skill level. When choosing the Kite size always use common sense and always choose a smaller size if you are not sure, especially when using the kite on land.</p>							
Wind Range (knots)							
- Hydrofoil	11-36	10-32	9-28	7-24	5-20	4-17	3-14
